Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

- 1. (Original) A measuring and dispensing device for attachment to the cap on a bottle of liquid medicine, the device comprising on one of its sides a socket formation by means of which it may be releasably attached to the cap, and on another side a concave formation for receiving liquid medicine, wherein the socket formation is a close but non-gripping fit on the cap.
- 2. (Original) A device as claimed in claim 1, wherein the socket formation and the concave formation face in opposite directions.
- 3. (Currently Amended) A device as claimed in claim 1 or 2, wherein the device is stable when the socket formation rests on a horizontal surface.
- 4. (Currently Amended) A device as claimed in any preceding claim claim 1, wherein the concave formation is graduated on its internal surface.
- 5. (Currently Amended) A device as claimed in any preceding claim claim 1, wherein the internal surface of the concave formation has a surface finish which does not act to retain liquid medicine.

- 6. (Currently Amended) A bottle of liquid medicine, having a cap onto which is fitted the socket formation of a measuring and dispensing device as claimed in any preceding claim 1.
- 7. (Original) A method of dispensing liquid medicine from a bottle as claimed in claim 6, the method including: removing the measuring and dispensing device from the cap of the bottle; removing the cap of the bottle; and delivering the liquid medicine from the bottle into concave formation of the

measuring and dispensing device to the required amount.
